ALDERNEY LAND USE PLAN REVIEW 2017

The Building and Development Control Committee have published draft Economic Development, Natural Environment and Built Environment and Heritage Strategies for consultation as part of the Land Use Plan. They include over 200 recommendations.

These three strategy documents are part of the 'evidence base' which, along with responses to the call for sites, will inform the final phase of the Land Use Plan. This is due to be published for public comment towards the end of May followed by a public inquiry in late summer. Phase 1 of the Land Use Plan, established a vision for the Island and its policies for housing. It was approved by the States in July 2016. Phase 2 aims to complete the Land Use Plan by this autumn.

The draft strategies and a summary of each can be downloaded from the States website.
