### Assessment of Suitability, Availability and Achievability

Is the site suitable for the proposed purpose?	Yes	The site is suitable for the proposed use given its historic importance and value. Given that the Alderney Society has invested resources in restoring the heritage asset and the asset's special historic and traditional interest, the proposed registration is aligned with the Building and Development Control (Alderney) Law, 2002 with regards to prerequisite requirements for registration. The water mill is already proposed to be added to the Register of Historic Buildings and Ancient Monuments in Appendices C and D of the Built Environment and Heritage Strategy and in the interim would be afforded policy protection through the Land Use Plan.
