I would like to object for the second time to the above plans to extend the small Juliet balcony that was approved on the original plans to a much larger balcony that will afford the people standing on it a 180 Deg view into the back of all the neighbouring houses. I attach pictures taken from the both sides and from the road below. The two windows nearest to the planned balcony are bedroom windows. A first floor balcony would be hugely intrusive.

Looking at Western neighbours

Looking from the north back at the house

Western neighbours looking towards the house and decking of neighbour beyond.
