Alderney Members back Marina concept

Alderney's Policy and Finance Committee (P&F) has confirmed its support for the development of a marina and following a recent submission has invited a detailed proposal from Braye Harbour Developments.

The developer is seeking a year's exclusivity as it progresses plans for a 400-berth marina at the eastern end of Braye Bay. This request will be examined by the General Services Committee (GSC) and the next meeting of P&F.

It is hoped a remote question and answer session with the developers, open to the public, can be arranged in the Island Hall, followed by a further meeting between the developers, States Members, the Sailing Club and the Chamber of Commerce.

GSC Chairman Graham McKinley said: "We look forward to seeing the detailed proposal and the financial estimates. For clarification and to quell rumours, to date the developer has not indicated that any financial contribution will be required from the States."
