

## Unique Opportunity on Alderney, Channel Islands for a second Veterinary Nurse to join our busy practice

Do you fancy an adventure on an island?

Alderney is one of the most beautiful Channel Islands and we have a truly unique experience for a second veterinary nurse who relishes responsibility and enjoys a challenge. Alderney has a population of just under 2000 people, is a 45-minute flight from mainland UK and is surrounded by beautiful beaches.

We are a charity practice providing a high level of veterinary care working with an experienced and dedicated vet in Guernsey who provides telemedicine support and biweekly visits to the island. We are looking for a second veterinary nurse to join the practice who enjoys working in a small team but is also confident as a lone worker.

If you are bored of the daily routine of ops and consults, looking for a change in lifestyle and are a confident problem solver, enjoy undertaking schedule 3 procedures and thinking on your feet, then this is the job for you. There is plenty of scope to shape the job to your strengths and interests and the shorter working hours ensure a great work life balance. Competitive salary, £500 annually towards CPD, practice van available, 1 bedroomed flat available for rental.

To apply, please send a cv and cover letter to [kkissickvn@aol.com](mailto:kkissickvn@aol.com) or email for more information on this role

Closing date: 4<sup>th</sup> March 2022
