ISLAND PLAN

Our vision

To maximise Alderney's prosperity & resilience

Economy

- ▶ Increase the number and diversity of resilient businesses
- ▶ Improve the skills base of the working community
- ▶ Develop an economic USP that can attract entrepreneurial business investment

Governance

- ▶ Improve the efficiency of government decision
- ▶ Put in place appropriate scrutiny of government decision-making
- ▶ Increase public confidence in the government and governance of the island

Energy

- ▶ Increase the amount of clean energy used (reduce the carbon footprint)
- ▶ Reduce energy costs for individuals and organisations

Natural & Man Made Environment

- ▶ Use States assets (terrestrial and marine) to their full potential for the public good
- ▶ Protect and develop the unique heritage and natural environment for the benefit of the community

Community Development

- ▶ Increase the number of economically active (20-50) year olds and their families and thus reduce the dependency ratio
- ▶ Increase the provision of appropriate housing for use by a growing population
- ▶ Increase and diversify the provision of family friendly indoor infrastructure amenities
- ▶ Development of Health and Social Care policy and practice to support the entire population

Accessibility & Connectivity

- ▶ Increase the resilience and capacity of air and sea transport
- ▶ Create a digital enterprise centre of excellence

The goals have been further broken down to specific action plans which are monitored through the States of Alderney committees and ultimately the States.
