

Electrician

Alderney Electricity Ltd is the sole provider electricity to the island of Alderney. AEL, as a company, is responsible for the generation and distribution of electricity from its Power Station at York Hill, via its HV and LV network to consumers. AEL also supplies and distributes fuel oils for transport and heating. A career opportunity has arisen for an Electrician to join the business at an exciting time as AEL begin to embark on a transition to renewable generation sources whilst continuing to invest in critical island infrastructure.

This is a unique role providing a diverse range of responsibility and opportunity for future development. As part of a small team you will be responsible for:

- 1) The installation, maintenance, testing and repair of electrical systems in industrial, commercial and domestic premises.
- 2) To test new and existing installations and produce test certification as required by the NICEIC.
- 3) Undergo internal and UK based training and development to enable you to become competent in High Voltage and Low Voltage distribution network operations.
- 4) Undergo internal and UK based training and development to become competent in Low Voltage and High Voltage cable jointing.
- 5) Comply with AEL Health & Safety policies, procedures and safe working practices.

Essential skills, qualifications and attributes:

- 1) Apprenticeship trained and qualified to City & Guilds Level 3 in Electrical Installations, or equivalent.
- 2) Good working knowledge of NICEIC regulations.
- 3) Ability to work with minimal supervision and as part of a team.
- 4) Flexible approach to working patterns.
- 5) Good problem solving skills.
- 6) Desire to undertake additional training and development to progress to Electrical Engineer status.

AEL offer a competitive salary, over-time, standby payments and benefits package including pension scheme and healthcare provision. As a 24/7, 365 business there may be the requirement to take part in out-of-hours stand-by arrangements.
