

Mechanic

Alderney Electricity Ltd is the sole provider of electricity to the island of Alderney. AEL, as a company, is responsible for the generation and distribution of electricity, from its power station at York Hill, via its HV and LV network to consumers. AEL also supplies and distributes fuel oils for transport and heating. A career opportunity has arisen for a Mechanic to join the business at an exciting time as AEL begin to embark on a transition to renewable generation sources whilst continuing to invest in critical island infrastructure.

This is a unique role providing a diverse range of responsibility and opportunity for future development. As part of a small team, you will be responsible for:

- 1) The installation, maintenance, testing and repair of mechanical systems at the power station.
- 2) The maintenance and repair of company vehicles.
- 3) Undergo UK based training and development to enable you to become competent in the diagnostics and repair of electric vehicles.
- 4) Comply with AEL Health & Safety policies, procedures and safe working practices.

Essential skills, qualifications and attributes:

- 1) Trained and qualified to Level 3 standard in vehicle maintenance and/or an appropriate engineering discipline.
- 2) Good working knowledge of diesel engines and auxiliary systems.
- 3) Ability to work with minimal supervision and as part of a team.
- 4) Flexible approach to working patterns.
- 5) Good problem-solving skills.
- 6) Full driving licence: category C would be beneficial, but not essential.

AEL offer a competitive salary and benefits package including pension scheme and healthcare provision. As a 24/7, 365 business there may be the requirement to take part in out-of-hours overtime.

Please submit a CV and covering letter to carol.walters@alderney-elec.com or call on 01481 822912 to find out more.
